Summary

B.Tech CSE undergraduate with a strong foundation in **Artificial Intelligence (AI/ML)** and **MERN Stack development**. Proven ability to build scalable healthcare and education applications, with a current CGPA of 8.62. Committed to translating complex ideas into clean, efficient software solutions that create real-world impact.

Technical Skills

- **Languages:** C, C++, Python, JavaScript (ES6+), HTML5, CSS3
- **Web Technologies:** React.js, Node.js, Express.js, MongoDB, MERN Stack
- **Concepts & Tools:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Git/GitHub, Artificial Intelligence, Machine Learning, CI/CD
- **Soft Skills:** Leadership, Team Collaboration, Problem-Solving, Adaptability

Education

Brainware University

B.Tech in Computer Science & Engineering (AI & ML)
Current CGPA: 8.62 (Expected Graduation: July 2027)

Kolkata, India

Aug 2023 – Present

Projects

Academic Project

AI-Powered Code Query/Explainer Tool

Oct 2025 – Nov 2025

- Developed a code analysis platform that parses complex codebases to generate line-by-line natural language explanations using **AI**.
- Integrated **React.js** for a responsive frontend and **Node.js/Express** to handle backend logic and API requests.
- **Links:** GitHub Repo | Live Link

Machine Learning

Heart Disease Prediction System

Oct 2025 – Dec 2025

- Engineered a predictive model using **Python** and **Scikit-learn** to assess heart disease risk based on patient health metrics.
- Achieved **92% accuracy** in early detection simulations, demonstrating the utility of **AI** in preventative healthcare.
- **Links:** GitHub Repo | Live Link

Web Development

Personal Portfolio

2025

- Created a responsive personal portfolio website using **HTML5**, **CSS3**, and **JavaScript** to showcase technical skills and project history.
- Deployed on **Netlify** with **CI/CD** automated integration for seamless updates.
- **Links:** GitHub Repo | Live Link

Achievements & Certifications

Ministry of MSME, Govt. of India

Govt. Recognition: MSME Project Shortlist

2025

Project: **AI-Powered Drone Logistics for Coastal & Hilly Regions**. Shortlisted for innovation and entrepreneurship support.

Samsung Innovation Campus

Samsung

Participant

2025

Developed a **Heart Disease Prediction System** as the capstone project.

Adobe India Hackathon

Adobe

Participant

2025

Participated in the competitive coding and technical assessment round (MCQ & Algorithms).

Smart India Hackathon

Brainware University

Participant

2025

Developed an **AI-powered mobile platform for sports talent assessment**.
